

# MITT ROMNEY

## *A Pro-Life Leader Who Shares Our Values*

*"...Romney has done his best to defend the culture of life on what is probably the most inhospitable terrain in the country."* –John J. Miller (National Review)

As governor of Massachusetts, Mitt Romney courageously and consistently defended the sanctity of human life. By vetoing bills that expanded embryonic stem-cell research and access to emergency contraception, Romney stood firmly in opposition to a powerful pro-abortion lobby.

*Mitt Romney: a proven pro-life leader who can be trusted to stand up for the unborn.*

### MITT ROMNEY ON ABORTION

"I understand that my views on laws governing abortion set me in the minority in our Commonwealth. I am pro-life."<sup>1</sup>

"For all the conflicting views on this issue, it speaks well of our country that we recognize abortion as a problem. The law may call it a right, but no one ever called it a good, and, in the quiet of conscience people of both political parties know that more than a million abortions a year cannot be squared with the good heart of America."<sup>1</sup>

"Many women considering abortion face terrible pressures, hurts, and fears; we should come to their aid with all the resourcefulness and empathy we can offer. At the same time, the starting point should be the innocence and vulnerability of the child wanting to be born."<sup>1</sup>

"I would hope that at some point, America would recognize that over a million abortions a year is just not right. And that the hearts and the minds of the people of American would come to agree on a national consensus that abortion should not exist in our land."<sup>2</sup>

"I am firmly pro-life."<sup>3</sup>
